

## How Do I Cite NCM®?

### **The American Medical Association style citation for entire NCM® Web site would be:**

American Dietetic Association. Nutrition Care Manual®.  
<http://nutritioncaremanual.org>. Accessed [Month Day, Year that you visited the site].

### **Citation for a specific page would be:**

American Dietetic Association. Nutrition Care Manual®. [name of page]. [URL for specific page]. Accessed [Month Day, Year].

### **For example:**

American Dietetic Association. Nutrition Care Manual®. Dysphagia: disease process.  
<http://nutritioncaremanual.org/index.cfm?Page=Diseases&topic=17179&headingid=18543>. Accessed October 18, 2007.

Other style manuals may order the information in a slightly different way, but will require the same basic info: Name of institution. Name of website. Page title. URL. Accessed date.

The accessed date is essential data, because NCM® is updated annually. Note that the new (10<sup>th</sup> ed) of AMA Manual of Style advises authors to print hard copy of electronic sources they cite, in case the electronic version is replaced or deleted.

**Note:** If you wish to reprint or adapt material from NCM® for publication in another source (either print or electronic), contact the permissions editor ([kmatthews@eatright.org](mailto:kmatthews@eatright.org)) for more information. (You do not need to seek permission to distribute the client education materials to patients.)
